#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

Claims 1-19 are objected to because of the following informalities: the preamble of claims 1-9 is a prefabricated jail cell, however claims 5, 13 and 18 recites the positive recitation "is attached to a plurality of other identical cells". It is unclear whether the combination or the subcombination is being claimed. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Gavin et al. (4843788).

In regards to claim 1: Gavin et al. teaches a prefabricated jail cell, comprising:

- a. a front panel ( Figure 2);
- b. a rear panel (Figure 2);
- c. two side panels joining said front and rear panels (Figure 2);
- d. a roof panel (14) joining said front, rear, and side panels at their upper edges;

Art Unit: 3635

e. wherein said jail cell includes first means (15) capable of connecting said front panel and one of said side panels at their juncture to an adjacently positioned second cell; and,

f. wherein said jail cell includes second means (15) capable of connecting said rear panel and one of said side panels at their juncture to an adjacently positioned second cell.

In regards to claim 2: The jail cell as recited in claim 1, wherein said cell includes an additional first means (15) located on a side opposite from said other first means capable of connecting said front panel to an adjacently located third cell, and wherein said cell includes an additional second means (15) located on a side opposite from said other second means capable of connecting said rear panel to an adjacently located third cell.

### ***Allowable Subject Matter***

Claims 3-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 20-26 are allowed.

### ***Conclusion***
